Bifold Doors	P3
Patio Doors	P4
Aluminium Windows	P5
Lantern Roofs	P6
Residential Doors	P7
Window and Door colours	P8
Energy ratings	P8
Commercial projects	P9

# BIFOLD DOORS

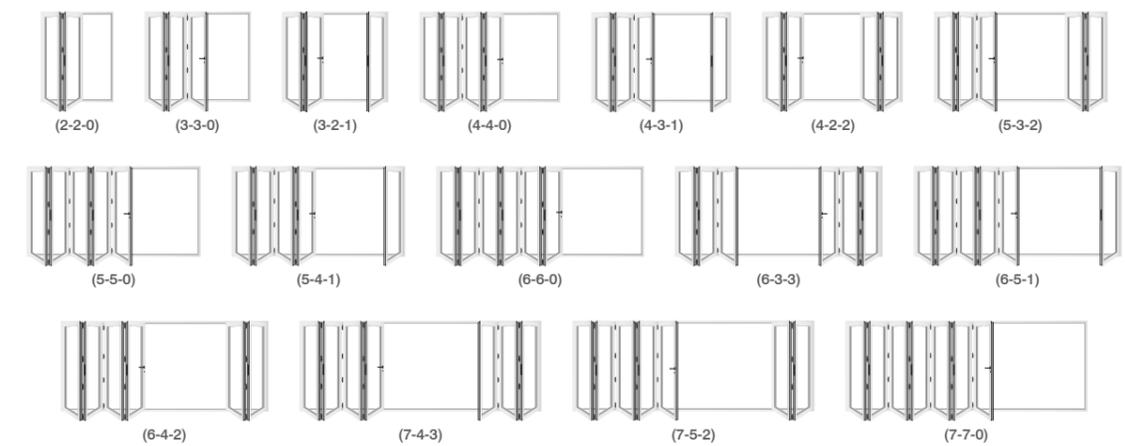

## Bring the outside in

Bi-fold doors open your home onto a garden, patio or balcony area to bring the outside in and provide natural ventilation. When closed, the vast glass expanse lets in more light and gives you spectacular views of the outside, whatever the season.

Choose aluminium bi-fold doors from us and you will get quality products that last a lifetime, with market leading security and energy credentials.

Our Sliding / Folding doors are capable of achieving an overall product U Value of 1.3 w/m<sup>2</sup>K when used with the correct sealed unit.

**Our aluminium bi-fold doors are supplied in the following configurations:**

# WINDOWS

## Sleek aluminium patio doors

Our aluminium patio doors maximise light and give stunning views. These sliding glass doors are ideal for smaller homes and areas with limited space for outward opening doors.

These patio doors also use a horizontal sliding action to open up your home to the outside and allow more light to enter the room.

Your door can feature a single sliding panel or go up to multiple panes to create a wide-span sliding glass wall.

## Bespoke aluminium windows to suit any property

### Curved windows

We can replace arched and swept head windows with a high-performance aluminium option. These statement styles are incredibly eye-catching and our windows are made to measure to retain the original character of your home.

### Sash windows

Sash windows are a common feature in older properties and have a unique charm that makes this style appealing to homeowners. Our sash windows bring together the traditional charm of original timber sash windows and the high performance of a modern aluminium window.

# LANTERN ROOFS

## Let there be light with aluminium lantern roofs

Lantern roofs can be installed into a new or existing flat roof extension to increase natural light in a room and give a heightened sense of space.

Our lantern roofs are 60% more thermally efficient than conventional aluminium systems, helping to keep your extension cool in the summer and warm in the winter.

## Residential doors

Looking for a stylish new front door? Our aluminium residential doors can improve the look of your home and improve its energy efficiency and security. Choose from a wide range of styles, glass and hardware to find the perfect individual look for you and your home.

## Windows and doors in any colour you can imagine

There are thousands of shades in the RAL colour range and we can offer you aluminium windows and doors in every single one.

We can even dual colour any of our window and door products, using different colours on each side, giving you even more options when it comes to choosing your ideal look.

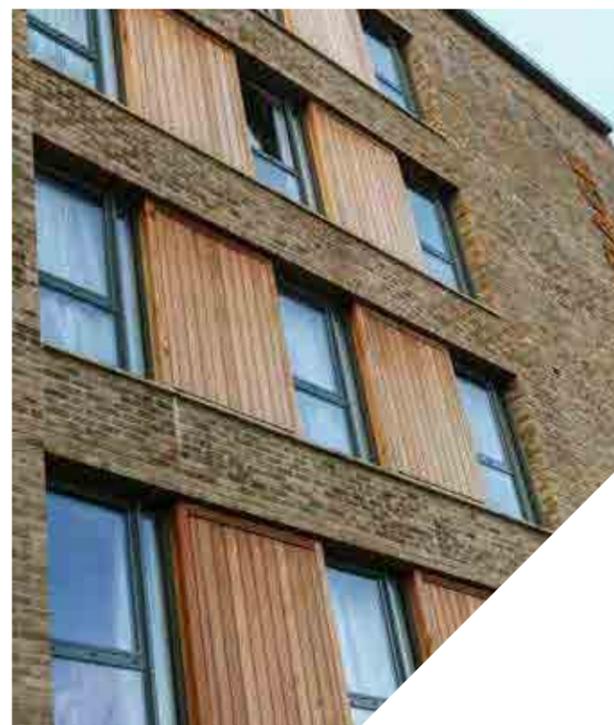

Our aluminium windows, doors and lantern roof can be powder coated in any RAL colour.

We can even dual colour any of our window and door products, using different colours on each side, please ask for details.

## Energy ratings

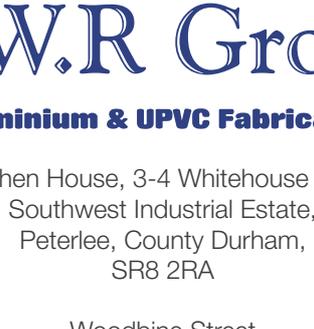

Our aluminium windows and doors are designed to offer high levels of energy efficiency, helping to insulate your home from the cold, reduce problems such as draughts and even save you money on your energy bills.

## Commercial projects

Need products for a commercial project? We manufacture and supply aluminium windows, doors and curtain walling for bars, restaurants, offices, high-rise apartments and mixed use developments.

If you have specific requirements, we can offer bespoke products, if they comply with manufacturer regulations.
